    • Ms. Veronica Ndetu *(Kenya)*
    • Mr. Stephen Muwaya *(Uganda)*
    • Mr. Morton Mwanza *(Zambia)*
    • AGNES Team
  • Q&A and interactive discussion
Some Background on the AFOLU COP

- Launched in April 2018 as an interactive network of African institutions addressing technical and policy challenges and solutions in the AFOLU sector.

- Provides a platform to:
  - Facilitate peer-to-peer exchange and collaboration
  - Provide demand-driven technical assistance and training
  - Share best practices, tools, resources and case studies
  - Foster champion institutes to carry on the work of the CoP
Priorities areas for the AFOLU CoP

• agroforestry action as a driver of socioeconomic development and emission reductions

• linking agricultural production with sustainable energy sources

• analytical approaches to assess GHG emissions and socioeconomic impacts of LEDS actions

• Long-term planning and decarbonization of the land-use sector

• translating analytical results to concrete policies and actions
Climate Helpdesk - Ad hoc support for NDCs, LT LEDS and transparency systems

Global advisory network providing rapid, high quality, short-term technical assistance for developing countries. A joint service by LEDS GP and Partnership on Transparency in the Paris Agreement (PATPA) in cooperation with the NDC Partnership.

Experts from 30+ institutions
Who can access the Helpdesk?

- Government actors and representatives (national and local)
- Technical institutions, consultants and NGOs working directly with governments if endorsed by the national UNFCCC focal point or the Ministry of Environment.

How to access Climate Helpdesk?

- Climate helpdesk: climate.helpdesk@giz.de
- Visit online - ledsgp.org/assistance
- Connect via Working Groups and Communities of Practice
